**Subject: CRN NFA-123-2571.5 Nuclear Fittings Registration
for Alloy Stainless Products Company, Inc. (ASP)
originally issued 91.05.16**

Dear Ms. Turylo:

Enclosed please find 3 copies of completed and notarized Statutory Declaration for Registration of Fittings for CRN-NFA-123-2571.5 originally issued May 16, 1991 for Alloy Stainless Products Company Inc. (ASP), covering supply of seamless fittings as material as a Material Organization qualified by ASME accredited QSC and NPT Certificate Holders.

Three sets of supporting documentation including the following are also enclosed:

- Registration issued May 16, 2001
- ASME Certificates and Audit/Approval Letters from
 - Consolidated Power Supply QSC-515
 - DuBose National Energy Services QSC-327
 - Energy & Process Corporation QSC-332
 - Tioga Pipe Supply Company, Inc. QSC-467
 - Energy Steel & Supply Company NPT-N-2928
 - Nova Machine Products Corporation NPT-N-3002
- ASP Data Catalog 995, ASP Quality Systems Manual Revision 13 (uncontrolled)
- ASME B16.11, MSS-SP-79, MSS-SP-83

The previous statutory declaration form had been completed by MCCR with an expiry date May 16, 2001. Ontario Power Generation recently questioned some of the above-named ASME-accredited organizations regarding the continued validity of this registration due to the lapsed expiry date.

As discussed in our telephone conversation, there is some urgency to clearing this matter as some of these organizations have contracts with and material in inventory scheduled for future shipment to Ontario Power Generation.

Please advise us regarding the status of our registration as soon as possible. Thank you in advance for your expedited handling of this matter. Your assistance has been greatly appreciated.

Very truly yours,

Annemarie Appleton
